My dear Saiyadain

I enclose some copies of a preliminary notice of a new educational journal, "School", which the Oxford University Press are producing. I am very anxious now to collect material for the first few issues. We can pay a minimum fee of two guineas. I enclose a table of possible contents of three numbers, but these subjects are merely suggestive. We are anxious that the articles shall be striking, original, and provocative. I shall be very grateful if you can find it possible to contribute an article, and to make the Journal known in India.

Kind regards

Yours sincerely

P. Saha Dutt
