My dear Kabeer Sahab,

I am grateful to you for your kind letter. Jawaharlalji was here. I just expressed to him my concern about Saiyidain Sahab. I also told him that I had also written to you about him suggesting the National Professorship for Education. He listened to my story and he had nothing to comment. I also told him in a way that it was just a report nothing to suggest or to question. Saiyidain is a gentleman who would never go to any one on his own accord in his personal case. It would be a happy thing if you could kindly see him and tell him what you have written to me.

With best regards,

Yours cordially,
